Reapply Special Requests

State law allows a licensed pharmacy technician trainee who does not complete a training program and pass a board approved pharmacy technician licensure examination within the licensure period to reapply for licensure not more than one time.

By rule, a pharmacy technician trainee whose license has expired may make a special request to the Board under R4-23-401 for approval to reapply for licensure.

If your pharmacy technician trainee license is expired and you have never been granted a reapply, you may be eligible for a reapply by special request. To request the Board's approval for a reapply, you must submit a letter that includes the statutory and administrative code references relating to your request. The letter must also include the reasons for your reapply.

The Board must base its decision to grant or deny your request on the following criteria:

- The reasons you failed the pharmacy technician examination and the likelihood that you will pass the pharmacy technician examination within the next 24 months; and
- Other extenuating circumstances.

You may use the following form to submit your special request. You must submit your request by mail, fax or email. Within 15 days of receipt, you should receive a notice regarding the status of your request. If your request is incomplete, you will be notified in writing and you will be allowed 30 days to complete your request. If your request is complete, you will be notified of the date of the Board meeting at which your request will be considered.

If the Board approves your request, you will be required to submit a complete application and fee.

If you have any questions regarding reapply requests, please contact the Board office.
